This is a fun demonstration , but spelling is still important! Notice how much easier and faster it is to read this paragraph than what is above. People will judge your writing -- and you -- by the content and the accuracy of your spelling and grammar, even if they are used to seeing errors in text messages. If your spelling is wrong in a document, they will be distracted and may not pay attention to what you are trying to say. People who spell and write well make more money at work and can afford better toys than people who don't. So be careful with your spelling and it will pay off.
